RIYANSH SINGH

B.Tech Computer Science & Engineering (AI) Student

singhriyansh2006@gmail.com · +91-9012233717 · Greater Delhi Area, India

LinkedIn · Portfolio · GitHub

Summary

Motivated B.Tech CSE (AI) student who builds practical projects that combine creativity and engineering. Hands-on experience in web development, freelance client delivery and Arduino-based robotics, backed by a strong programming foundation and a drive to learn fast and ship useful work. Seeking opportunities to apply my technical skills, contribute to real-world projects, and grow as a software developer.

Education

Noida Institute of Engineering & Technology (NIET) Aug 2026 – Jun 2030

B.Tech, Computer Science & Engineering (Artificial Intelligence)

J. Milton Public School Mar 2024 – Apr 2026

Senior Secondary (Class XII), Science (PCM) **71.6%**

St. George's School Unit 2 2013 – 2024

Secondary (Class X) **92%**

Skills

Programming	C, C++, Python, JavaScript, HTML5, CSS3
Web & UI	Responsive Design, UI/UX, Animations (GSAP)
Tools & Platforms	Git, GitHub, VS Code, Vercel
Robotics	Arduino, Sensors, Servo Motors
Creative	Video Editing, Graphic Design, Visual Storytelling
Professional	Presentation, Entrepreneurship, Client Communication, Creativity & Innovation

Experience

Freelance Creative Developer & Editor Nov 2025 – May 2026

Fiverr

- Built responsive websites and interactive UI projects for clients using HTML, CSS and JavaScript, including a complete Turf Tournament website
- Edited short-form videos and designed visual assets
- Managed client communication, delivery and revisions independently

Community Growth & Content Fellow Apr 2026 – May 2026

PrettiFlow

- Supported community outreach and content promotion for a startup-focused fellowship
- Learned startup growth strategies and audience engagement

Projects

AI Chat Android App GitHub

- Built an AI-powered Android chat app in Kotlin entirely on a mobile device using Android IDE
- Worked on chat UI components, responsive layouts and real-time conversation flow

Turf Tournament Website Live Demo · GitHub

- Designed a responsive sports tournament website with match scheduling UI, team listings and interactive layouts

FunHub — Interactive UI Playground Live Demo · GitHub

- Created interactive UI experiments and animations with plain frontend code, without frameworks

Robotics Projects *Arduino*

- **Autonomous Motor Car:** obstacle-avoidance car using sensors, with motor control logic
- **Servo-Controlled Robotic Arm:** contributed to programmed servo movement and control

Achievements & Certifications

- **1st Runner-Up**, Student Innovation & Idea Pitching, Bharat Udyam Sangam 2026
- Selected as Goalkeeper and Left Defender for Zonal/National-Level Football Camp
- Certified in Artificial Intelligence and Generative AI (Infosys Springboard), Celonis Foundations and Ethical Hacking
- Completed Robotics Summer Camp Training (Certificate of Achievement)
